Meeting Date: August 27, 2013

Subject: PUBLIC HEARING - ADOPTION OF A RESOLUTION ORDERING THE VACATION OF A PORTION OF THE FRONTAGE ROAD LOCATED NORTH OF 9036 BEVERLY BOULEVARD IN THE COMMERCIAL PLANNED DEVELOPMENT (CPD) ZONED DISTRICT

Recommendation:

Adopt Resolution ordering the vacation of a portion of the frontage road at the intersection north of 9036 Beverly Boulevard.

Fiscal Impact:

Once the subject street dedication is vacated, it becomes taxable square footage resulting in additional property tax revenues to the City. Ownership of the property is not vested in the City. The property will revert to the fee title owner.

Discussion:

On July 23, 2013, the City Council adopted a resolution declaring its intent to vacate a portion of the frontage road along Beverly Boulevard and setting a public hearing for August 27, 2013 to consider the proposed street vacation. A public hearing notification was sent to all residents within 300' of the subject intersection as well as posted at three locations at the subject right-of-way property. This partial street vacation involves an approximately 146' long by 40' wide segment of the frontage road on the south side of Beverly Boulevard, east of the intersection of Beverly Boulevard and Lindell Avenue. The proposed right-of-way vacation is located directly north of the parcel at 9036 Beverly Boulevard.

Title research found that the fee title of the proposed vacation area is not vested in the City. The City’s interest in the subject street vacation area is an easement only for public street purposes. Once the street is vacated, it reverts back to the private entity to which
the property is vested. Preliminary title research shows the subject vacated area is vested in the owners of the adjacent parcel at 9036 Beverly Boulevard, currently Norms Restaurants. Norms Restaurants plans to utilize the vacated street property as part of development plans for the site. As a condition of this street vacation, Norms Restaurants will be required to enter into a development agreement with the City placing the financial responsibility for all necessary improvements and easements related to this vacation upon Norms. Norms will also be required to provide sufficient documentation establishing ownership of the vacated area. Upon compliance with these conditions, the vacation will be recorded and all rights to the vacated property will be conveyed to Norms Restaurants, except for any necessary public utility easements. If, for some reason, Norms fails to meet these conditions, the subject street vacation will not be recorded since it will result in the creation of a parcel which is undevelopable for commercial use due to restricted size and dimensions.

The vacation was reviewed by pertinent City Departments and utilities to assess the need for the reservation of utility easement(s) and improvements within the subject right-of-way. As of August 21, 2013, the only confirmed utilities within the vacated area are by the City of Pico Rivera for sewer line services and Southern California Edison (SCE) for electric lines and incidental services. As requested by SCE in Attachment 5 dated August 14, 2013, the SCE easement will be reserved; the City’s existing sewer service may be abandoned upon determination that this line will not be necessary for future development.

This proposed street vacation was found to be in conformance with the City’s General Plan by the Planning Commission via the attached Resolution adopted on July 15, 2013. This vacation is also justified via the City’s 2010 Beverly Boulevard Median Traffic Analysis which found that this intersection at Beverly Boulevard and Lindell Avenue is underutilized having 23 a.m. inbound peak hour trips and 24 p.m. inbound peak hour trips; the study found that vehicles did not utilize this street for outbound trips during the a.m. or p.m. hours. This vacation will result in a negligible inconvenience to nearby residents who utilize the frontage road to access their residential neighborhoods. The negligible inconvenience is negated since route alternatives are available within close proximity. Going eastbound on Beverly Boulevard, the next right-hand turn opportunity is just three short blocks away at Deland Avenue.
Environmental Review:

Pursuant to the guidelines of the California Environmental Quality Act, the project is categorically exempt under a Class 5 Section 15305 (Minor Alterations in Land Use Limitations) because the project constitutes a minor adjustment of a lot line that will not result in the creation of a new parcel, nor a change in land use or density; therefore it will not have a significant effect on the environment.

Conclusion:

Staff recommends that the City Council adopt the attached Resolution declaring the vacation of a portion of the frontage road located north of 9036 Beverly Boulevard at Lindell Avenue conveying all rights to the underlying fee title owner, Norms Restaurants, upon compliance with the conditions regarding the establishment of ownership of the subject vacation area and execution of a development agreement with the City for all necessary improvements within the vacation area.

PUBLIC HEARING:

GENERAL PLAN CONFORMANCE RESOLUTION FOR PROPOSED VACATION OF A PORTION OF THE FRONTAGE ROAD ON BEVERLY BOULEVARD ADJACENT TO 9036 BEVERLY BOULEVARD IN THE GENERAL COMMERCIAL (C-G) ZONED DISTRICT
Senior Planner Guille Aguilar presented the report. The City is considering a partial street vacation of an approximately 146' long by 40' wide segment of the frontage on the south side of Beverly Boulevard, east of the intersection of Beverly Boulevard and Lindell Avenue. The proposed right-of-way vacation is located directly north of the parcel at 9036 Beverly Boulevard, which has been vacant and undeveloped for several years.

Commissioner Celiz arrived to the meeting and was acknowledged by the commissioners.

Senior Planner Aguilar explained the street vacation process, which is mandated by the California Streets and Highways Code and the California Government Code, consists of multiple steps with today’s meeting being the first step in the street vacation approval process. Senior Planner Aguilar explained utility companies and other departments have been informed of the proposal and staff is awaiting their input for potential utility easements within the property.

Staff will present a Resolution of Intent at the July 23, 2013 City Council meeting at which point the City Council will make the decision as to set a date and time for the public hearing. Upon approval of that resolution, notices will be mailed to the residents who live within 300’ feet of the subject property. The notice will invite the residents to the public hearing and solicit their input. Upon City Council approval of the subject street vacation, the subject land will be conveyed to the adjacent property owner of 9036 Beverly Boulevard, currently Norms Restaurants. Norms Restaurants will be responsible for all necessary improvements and easements related to this vacation.

Senior Planner explained that the proposed street vacation is consistent with Policies A.1.2 and A.1.4 of the Municipal Facilities element of the General Plan which call for improvements to a roadway where such improvements are sensitive to adjacent neighborhoods, reflect resident concerns for safety and protect local neighborhoods by discouraging non-local through traffic. Vacation of this frontage road will result in a more defined buffer between the commercial property and the residential neighborhood.

Senior Planner Aguilar indicated that this segment of the frontage street has also been found to be underutilized via a 2010 traffic analysis. The traffic analysis also identifies a high rate of traffic collision incidents at this intersection.

The proposed street vacation is also consistent with the Municipal Facilities and
Services Element of the Pico Rivera General Plan which designates Beverly Boulevard as a ‘Major Highway’ having a right-of-way width of 100’. The current right-of-way width is 184’. This proposed vacation will result in an ultimate right-of-way width of 144’, which is 44’ in excess of the required 100’ width.

Chairperson Elisaldez motioned to open public hearing. There being no one in the audience, a motion was made by Commissioner Zermeno seconded by Commissioner Garcia to close the public hearing.

Chairperson Elisaldez asked if the street vacation would potentially delay the construction of Norms.

Senior Planner Aguilar responded that this could cause delay for Norms because the proposal currently under review with the City indicates construction within the frontage road area.

Chairperson Zermeno asked when Norms would begin construction.

Senior Planner Aguilar responded that Norms is pursuing an ambitious schedule and plans to begin construction as early as next month.

Commissioner Celiz asked if the frontage road is currently closed.

Senior Planner Aguilar responded that the frontage road is currently open and accessible. Once it is closed, residents will need to drive three blocks to the east to enter their neighborhoods, but the 2010 traffic study indicated that the minor inconvenience to the residents is outweighed because safer alternatives are available.

Commissioner Celiz inquired if Norms asked for the street vacation.

Senior Planner Aguilar responded that the idea for the street vacation evolved from conversation that staff had with Norms about increasing the potential attractiveness of the site in order to bring in a good tenant and how to create an appropriate buffer between the residential neighborhood and the new commercial development.

Commissioner Garcia asked if the remaining portion of the frontage street would become a cul-de-sac.

Senior Planner Aguilar indicated that this is yet to be determined because staff is still waiting on review from other departments. The final decision will be presented to the
July 15, 2013 Planning Commission Minutes

City Council.

Commissioner Martinez asked who initiated the street vacation.

Senior Planner Aguilar indicated that the City initiated the street vacation.

Commissioner Martinez asked for clarification.

Deputy Director Julia Gonzalez indicated that City staff initiated the street vacation and explained that now that Redevelopment is no longer in existence, the City is limited as to how the City can attract good businesses such as Norms. Staff sees this as a mutual benefit because the traffic study from 2010 justified the closure due to underutilization and traffic safety concerns.

Commissioner Martinez indicated that although he is in support for the street vacation and for Norms, he believes that the real benefit of this street vacation goes to Norms. He suggests to have an appraisal for the property and to present this information to the City Council. He also suggested that our report should include a dollar value of the property.

Commissioner Martinez asked if Norms would be paying for the property and if not, why not.

Deputy Director Gonzalez indicated that Norms would not be paying for the property.

Commissioner Martinez indicated that Norms should be responsible for paying for the street vacation because it takes money for staff to prepare the report, to post public notices, to pay for the Planning Commissioners’ attendance, etc. Commissioner Martinez asked who made the decision to waive the fees.

Deputy Director Gonzalez indicated that the decision to have the City initiate and process the street vacation was made by staff as an economic development strategy. Since Redevelopment no longer exists, we do not have any actual monies to attract desirable businesses to the City, such as Norms.

Chairperson Elizalde asked that the Planning Commissioners receive copies of the appraisal or value analysis of the subject property when it is prepared for the City Council.

There being no further discussion, it was motioned to approve the resolution by
Commissioner Celiz, seconded by Commissioner Garcia.

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF PICO RIVERA, CALIFORNIA, FINDING THAT THE VACATION OF A PORTION OF THE FRONTAGE STREET ON BEVERLY BOULEVARD, NORTH OF THE PROPERTY AT 9036 BEVERLY BOULEVARD, IS IN CONFORMANCE WITH THE CITY OF PICO RIVERA GENERAL PLAN HEREIN REFERRED TO AS STREET VACATION NO. 13-1

WHEREAS, the City of Pico Rivera General Plan was adopted on August 16, 1993; and,

WHEREAS, the California Government Code 65402, requires the City of Pico Rivera shall not acquire, use or dispose of any real property or vacate any street until the disposition of the property has been found in conformance with the City’s General Plan; and,

WHEREAS, the proposed vacation of a 146' long segment of the frontage street, based on existing land use and street configuration, it is no longer required for public street and highway purposes; and,

WHEREAS, the subject segment of the frontage street adjacent to 9036 Beverly Boulevard, having Assessor’s Parcel Number 8121-025-014, is shown in Exhibit A; and,

WHEREAS, the Planning Commission of the City of Pico Rivera reviewed the proposed street vacation at its regularly scheduled meeting on July 15, 2013; and

NOW THEREFORE, the Planning Commission of the City of Pico Rivera does hereby resolve as follows:

SECTION 1. The Planning Commission of the City of Pico Rivera hereby finds the above recitals true and correct and incorporates them herein by this reference.

SECTION 2. The Planning Commission of the City of Pico Rivera hereby finds and determines that the proposed vacation of a portion of the frontage street is in conformance with the City of Pico Rivera General Plan pursuant to Government Code Section 65402.

SECTION 3. That, upon City Council approval, the proposed vacation of the subject segment of the frontage street along Beverly Boulevard shall be conveyed to the abutting property owner of 9036 Beverly Boulevard, Pico Rivera.

SECTION 4. That the Planning Commission finds that Street Vacation No. 13-1 is consistent with the General Plan based on the following reasons and findings:

a) The proposed street vacation is consistent with Policies A.1.2 and A.1.4 of the Municipal Facilities element of the General Plan which call for improvements to a roadway where such improvements are sensitive to adjacent neighborhoods, reflect
resident concerns for safety and protect local neighborhoods by discouraging non-local through traffic. Vacation of this segment of the Beverly Boulevard frontage road will eliminate access onto the property at 9036 Beverly Boulevard via the residential neighborhood along Lindell Avenue thus resulting in a more defined buffer between the commercial property and the residential neighborhood.

b) The Municipal Facilities and Services Element of the Pico Rivera General Plan designates Beverly Boulevard as a 'Major Highway' having a right-of-way width of 100'. This segment of Beverly Boulevard, where the frontage street exists, has a right-of-way width of 184'. This proposed vacation will result in an ultimate right-of-way width of 144', which is 44' in excess of the required 100' width.

c) The subject segment of the frontage street which is proposed to be vacated has been found to be underutilized. A 2010 traffic analysis for Beverly Boulevard identifies that this segment of the frontage road is extremely underutilized, having 23 peak hour inbound trips into the frontage road in the a.m. hours and 24 peak hour inbound trips into the frontage road in the p.m. hours. The study showed no outbound vehicle trips coming from the frontage road during a.m. or p.m. hours.

d) The subject segment of the frontage street which is proposed to be vacated has been found to have a high rate of traffic collisions. The 2010 traffic analysis for Beverly Boulevard identifies that this segment of the frontage road, located at the intersection of Lindell Avenue and Beverly Boulevard, as having a high rate of traffic collision incidents. Vacation of this segment of the frontage street is expected to result in a reduction of traffic collision incidents.

SECTION 5. The Planning Commission Secretary shall certify to the passage and adoption of this resolution and enter it into the book of original resolutions and it shall become effective immediately upon its approval.

Meeting Date: August 27, 2013

Subject: PUBLIC HEARING – 2013 CONGESTION MANAGEMENT PROGRAM

Recommendation:

Open the Public Hearing and adopt the Resolution affirming City conformance with the Congestion Management Program.

Fiscal Impact:

Failure to adopt a resolution for self-certification of conformance with the requirement of the Congestion Management Program may jeopardize the City’s share of future state and federal transportation programming funds.

Discussion:

The Congestion Management Program (CMP) is a state-mandated program approved with the passage of Proposition 111 in 1990. The basis for the CMP is that land-use decisions impact the regional transportation system and cities approving developments should be held accountable for alleviating traffic congestion for the projects approved within their jurisdiction. The state statute required the development of a CMP report to be adopted and updated annually for every county and local government and submitted to Los Angeles County Metropolitan Transportation Authority (Metro).

Receipt of state gas tax money and eligibility for other state and federal transportation programming funds depend on the City maintaining annual compliance with CMP requirements. These requirements include biennial traffic counts for designated arterial
intersections and continued implementation of the previously adopted Transportation Demand Management Ordinance and the Land Use Analysis Program.

The City is required to submit the Local Development Report (LDR) which contains the City’s net development activity for the year. This Local Development Report (LDR) was previously based on a positive point system showing net growth being off-set by certain transportation improvements and maintaining a credit balance. Metro froze local jurisdiction’s credit balances pending a study to determine the feasibility of a countywide impact fee. However, cities must continue to report their new net development activity just as in prior years.

City staff will submit the adopted resolution and the 2013 CMP Local Development report to Metro for conformance on or before the September 1 deadline.

Mayor Camacho opened the public hearing and noted that there were no written or oral communications to provide public testimony.

City Manager Bates stated that at the direction of City Council this item was broken down into two separate sections on the agenda; Items No. 1 and 9. Item No. 1, he
stated, is to place into effect the moratorium with regard to drug paraphernalia that was discussed at the last City Council meeting.

Councilmember Salcido asked if the drug paraphernalia referenced in the ordinance is legal in the State of California. Community and Economic Development Deputy Director Gonzalez stated that drug paraphernalia is illegal. Councilmember Salcido asked why the need for the moratorium then. Deputy Director Gonzalez stated that the moratorium is to adopt a local code that strengthens the state law.

City Attorney Alvarez-Glasman added that this ordinance would put a moratorium on any new head shops from operating within the City while City staff reviews and analyzes the appropriate standards to impose upon operators. He stated that the ordinance provides the City the tool in the toolbox to enforce not only from a criminal enforcement standpoint but also from a code enforcement standpoint.

Mayor Camacho closed the public hearing.

CONSENT CALENDAR ITEMS PULLED FOR FURTHER DISCUSSION:

5. Resolution of Intent for Proposed Vacation of a Portion of the Frontage Road Located North of 9036 Beverly Boulevard in the General Commercial (C-G) Zoned District.

Councilmember Salcido asked for the legal interpretation of convey. City Attorney Alvarez-Glasman stated convey means to grant or release to authorize the transfer of property from one party to another. Councilmember Salcido asked if the City is selling the property to which City Manager Bates responded that the City is not getting compensation for the property. The property, he stated, is being conveyed for the benefit of economic development.

City Attorney Alvarez-Glasman stated that cities may make this type of transaction to enhance or to facilitate the project. He stated that the City takes a piece of property that is generating no revenue and builds upon a project that is going to build and generate property tax revenue and that this would not trigger a gift of public funds.

Councilmember Salcido inquired about how the safety report was generated in regard to the intersection of Beverly Boulevard and Lindell Avenue. Public Works Director Cervantes stated that the Public Works Department prepared a traffic study for that intersection pursuant to complaints about congestion. One of the discoveries of the report, he stated, is the high frequency of accidents.

Councilmember Archuleta asked if the proposal was brought to staff by Norm’s or if staff was being proactive and business friendly. Deputy Director Gonzalez stated it was a mutual discussion between the developers and the City.

LEGISLATION:

City Manager Bates stated this is the item that was separated out from the moratorium ordinance which addresses the e-cigarettes. He stated that the tobacco industry is backing the e-cigarette proposals and staff's concern is how the flavored nicotine may affect the youth.

Deputy Director Gonzalez stated that staff has conducted additional research and found that there is inconclusive studies to support the electronic cigarettes are helpful with the deterrent of tobacco products. Staff conducted research with surrounding cities and found that many cities allowed electronic cigarettes by right and categorized them similar to tobacco products. However, she stated, this product is fairly new so many cities have not had a request for permits and have not had to deal with this issue. She further stated that the FDA has not approved e-cigarettes as a smoking cessation device, as such, if you see an e-cigarette it states that it is not meant for the purpose of cessation devices. The amendment to the ordinance, she stated, would not prohibit the sale of e-cigarettes. She stated that the amendment to the ordinance would categorize e-cigarettes as tobacco products and prohibit use wherever normal tobacco products are sold.

Council members discussed the legality of the e-cigarette, tobacco and nicotine, distance requirements, and lack of conclusive data.

City Attorney Alvarez-Glasman stated that if this ordinance is adopted it would not ban or prohibit the sale of e-cigarettes. He explained that what the ordinance would
accomplish is banning the use of an e-cigarette in the designated public places where smoking is prohibited.

Mayor Camacho spoke in favor of the ordinance prohibiting e-cigarettes in public places as a deterrent in attracting youth to the flavored nicotine.

Councilmember Salcido stated that he is not comfortable with labeling the e-cigarette as a tobacco product and could not approve the ordinance the way it is currently written.

Mayor Pro Tem Tercero stated that because the data is inconclusive he could not support the ordinance.

Motion by Councilmember Armenta, seconded by Councilmember Archuleta to introduce Ordinance No. 1079 amending Chapter 8.48, Smoking of the Pico Rivera Municipal Code updating where tobacco products and electronic cigarettes may be utilized. Motion carries by the following roll call vote:

In compliance with AB 1234 requirements, Mayor Camacho and Councilmember Armenta gave a report on their attendance at the Independent Cities conference.

Mayor Camacho acknowledged the presence of Assistant Fire Chief Scott Mahan in attendance at the regular City Council meeting. He also mentioned that through the hard work of the Parks & Recreation Department the City received grants that will be used at Pico Park to develop a rubberized walking track, shade shelter and four exercise stations around the parameter of the park. In addition, he stated that the City has seven (7) new monuments at the entrances of the City and stated that no general funds were used for these projects. At the request of Mayor Camacho, Director of Public Works Cervantes elaborated on the upcoming Phase E Cape and Slurry Seal Project that will resurface 84 residential streets.

Mayor Camacho invited residents to the visioning meeting on the former Pico Rivera Campground on July 30, 2013 at the Golf Course to receive feedback on what the community would envision for the use of the former campground. Tuesday, August 6, 2013, he stated, is National Night Out and invited the community to attend the event.

Councilmember Archuleta mentioned the concerts in the park and the success of the events. He asked that staff at future concert events increase the size of the dance floor.

OLD BUSINESS:

Councilmember Archuleta asked Assistant Fire Chief Mahan to elaborate on the response of fire trucks to house fires and how the trucks are equipped when there is no fire hydrant available. Assistant Fire Chief Mahan stated that the four fire truck engines each have 500 gallons of water and one engine is adequate for most house fires. He also stated that the fire truck engines are equipped with a fire hose in case a fire hydrant is needed.

Assistant to the City Manager Chavez added that staff has done an analysis that identifies locations in the City for residential areas that on a grid from one to five would require immediate identification for address signs. The City, he stated, will be working
with the School District to implement the project by applying addresses to the curbs of residential homes. The alleys, he stated, is a little more difficult to apply address numbers to because the construction material is in different forms and not identical like a curb.

PLANNING COMMISSION REPORTS:

a) CITY COUNCIL MEETING OF June 11, 2013 – Assistant Planner Gallagher reported that the Council approved the film ordinance, along with various code updates and language clarifications, as well as adopting the fee schedule for the next fiscal year. The ordinance was modeled after a template of the California Film Commission as a method for the City to be more business friendly. Filming hours have been extended to 7 a.m. to 10 p.m., the radius was lowered from 300 to 200 feet to notify surrounding properties. Reduction of fees to $350 for a regular filming permit and $700 for a complex filming permit.

Commissioner Zermeno asked if the lowering of fees was a strategy to become more business friendly for filming in the City.
Director Martinez responded that this was the idea in bringing in more filming and being business friendly.

Commissioner Martinez asked what are the film permit fees for.

Assistant Planner Gallagher responded that the fees were for the cost of staff from various departments reviewing the permit application.

Commissioner Martinez asked about the end of Lexington Road and Whittier Boulevard, that the cul-de-sac ends at the railroad and this area is collecting trash. He mentioned that this area may have once been open and gone straight through, and if we know if this will be opening up.

PUBLIC HEARING:

GENERAL PLAN CONFORMANCE RESOLUTION FOR PROPOSED VACATION OF A PORTION OF THE FRONTAGE ROAD ON BEVERLY BOULEVARD ADJACENT TO 9036 BEVERLY BOULEVARD IN THE GENERAL COMMERCIAL (C-G) ZONED DISTRICT
Senior Planner Guille Aguilar presented the report. The City is considering a partial street vacation of an approximately 146’ long by 40’ wide segment of the frontage on the south side of Beverly Boulevard, east of the intersection of Beverly Boulevard and Lindell Avenue. The proposed right-of-way vacation is located directly north of the parcel at 9036 Beverly Boulevard, which has been vacant and undeveloped for several years.

Commissioner Celiz arrived to the meeting and was acknowledged by the commissioners.

Senior Planner Aguilar explained the street vacation process, which is mandated by the California Streets and Highways Code and the California Government Code, consists of multiple steps with today’s meeting being the first step in the street vacation approval process. Senior Planner Aguilar explained utility companies and other departments have been informed of the proposal and staff is awaiting their input for potential utility easements within the property.

Staff will present a Resolution of Intent at the July 23, 2013 City Council meeting at which point the City Council will make the decision as to set a date and time for the public hearing. Upon approval of that resolution, notices will be mailed to the residents who live within 300’ feet of the subject property. The notice will invite the residents to the public hearing and solicit their input. Upon City Council approval of the subject street vacation, the subject land will be conveyed to the adjacent property owner of 9036 Beverly Boulevard, currently Norms Restaurants. Norms Restaurants will be responsible for all necessary improvements and easements related to this vacation.

Senior Planner explained that the proposed street vacation is consistent with Policies A.1.2 and A.1.4 of the Municipal Facilities element of the General Plan which call for improvements to a roadway where such improvements are sensitive to adjacent neighborhoods, reflect resident concerns for safety and protect local neighborhoods by discouraging non-local through traffic. Vacation of this frontage road will result in a more defined buffer between the commercial property and the residential neighborhood.

Senior Planner Aguilar indicated that this segment of the frontage street has also been found to be underutilized via a 2010 traffic analysis. The traffic analysis also identifies a high rate of traffic collision incidents at this intersection.

The proposed street vacation is also consistent with the Municipal Facilities and
July 15, 2013 Planning Commission Minutes
Page 3 of 6

Services Element of the Pico Rivera General Plan which designates Beverly Boulevard as a ‘Major Highway’ having a right-of-way width of 100’. The current right-of-way width is 184’. This proposed vacation will result in an ultimate right-of-way width of 144’, which is 44’ in excess of the required 100’ width.

Chairperson Elisaldez motioned to open public hearing. There being no one in the audience, a motion was made by Commissioner Zermeno seconded by Commissioner Garcia to close the public hearing.

Chairperson Elisaldez asked if the street vacation would potentially delay the construction of Norms.

Senior Planner Aguilar responded that this could cause delay for Norms because the proposal currently under review with the City indicates construction within the frontage road area.

Chairperson Zermeno asked when Norms would begin construction.

Senior Planner Aguilar responded that Norms is pursuing an ambitious schedule and plans to begin construction as early as next month.

Commissioner Celiz asked if the frontage road is currently closed.

Senior Planner Aguilar responded that the frontage road is currently open and accessible. Once it is closed, residents will need to drive three blocks to the east to enter their neighborhoods, but the 2010 traffic study indicated that the minor inconvenience to the residents is outweighed because safer alternatives are available.

Commissioner Celiz inquired if Norms asked for the street vacation.

Senior Planner Aguilar responded that the idea for the street vacation evolved from conversation that staff had with Norms about increasing the potential attractiveness of the site in order to bring in a good tenant and how to create an appropriate buffer between the residential neighborhood and the new commercial development.

Commissioner Garcia asked if the remaining portion of the frontage street would become a cul-de-sac.

Senior Planner Aguilar indicated that this is yet to be determined because staff is still waiting on review from other departments. The final decision will be presented to the
City Council.

Commissioner Martinez asked who initiated the street vacation.

Senior Planner Aguilar indicated that the City initiated the street vacation.

Commissioner Martinez asked for clarification.

Deputy Director Julia Gonzalez indicated that City staff initiated the street vacation and explained that now that Redevelopment is no longer in existence, the City is limited as to how the City can attract good businesses such as Norms. Staff sees this as a mutual benefit because the traffic study from 2010 justified the closure due to underutilization and traffic safety concerns.

Commissioner Martinez indicated that although he is in support for the street vacation and for Norms, he believes that the real benefit of this street vacation goes to Norms. He suggests to have an appraisal for the property and to present this information to the City Council. He also suggested that our report should include a dollar value of the property.

Commissioner Martinez asked if Norms would be paying for the property and if not, why not.

Deputy Director Gonzalez indicated that Norms would not be paying for the property.

Commissioner Martinez indicated that Norms should be responsible for paying for the street vacation because it takes money for staff to prepare the report, to post public notices, to pay for the Planning Commissioners’ attendance, etc. Commissioner Martinez asked who made the decision to waive the fees.

Deputy Director Gonzalez indicated that the decision to have the City initiate and process the street vacation was made by staff as an economic development strategy. Since Redevelopment no longer exists, we do not have any actual monies to attract desirable businesses to the City, such as Norms.

Chairperson Elizalde asked that the Planning Commissioners receive copies of the appraisal or value analysis of the subject property when it is prepared for the City Council.

There being no further discussion, it was motioned to approve the resolution by
Commissioner Celiz, seconded by Commissioner Garcia.

Subject: RESIDENTIAL RESURFACING PROGRAM (RRP) PHASE “E”, SLURRY SEAL, CIP NO. 21245 – AWARD CONSTRUCTION CONTRACT

Recommendation:

Award a construction contract in the amount of $316,498 to American Asphalt South Inc. for the Residential Resurfacing Program (RRP) Phase “E”, Slurry Seal, CIP No. 21245, and authorize the Mayor to execute the contract in a form approved by the City Attorney.

Fiscal Impact: $ 316,498 (Measure R)

Discussion:

The Residential Resurfacing Program, Phase “E”, Slurry Seal Project (Slurry Seal Project) is part of the City’s Residential Resurfacing Program (RRP). This project was initiated to preserve roadway pavements with a cost-effective resurfacing method known as a slurry seal; a pavement preservation treatment that can extend the life of pavements for more than seven (7) years.

The Slurry Seal Project consists of slurry sealing 61 residential street segments in the north (18), mid (12), and south (32) areas of the City (See Enclosures 1 and 2 for a list and a map of the streets). Work includes weed abatement, crack sealing, skin patching and slurry sealing roadway pavements.

On June 11, 2013, the City Council approved plans, specifications and estimate and authorized staff to advertise for bids.

On July 31, 2013 and on August 7, 2013, the Notice Inviting Bids was advertised. On August 20, 2013, six (6) bids were received and opened by the City Clerk in a public forum. Below is a summary with the three lowest bids. For the entire list of bidders, see Attachment “A”.
After completion of the bid analysis, American Asphalt South Inc., was confirmed to be a responsive bidder and their bid was confirmed to be the lowest responsible bid. Their $316,498 bid is $19,503 or 5.80% lower than the Engineer’s Estimate of $336,000.

American Asphalt South Inc. exhibits the capability, capacity, and experience to perform the work required under the bid solicitation. They’ve constructed similar projects for the Cities of Downey, Pasadena and El Segundo.

The project is budgeted in the CIP program. This $316,498 project will be funded with Measure R (restricted funds). Funds will be used for construction ($316,498) and job costing ($19,502).

The anticipated project schedule is as follows:

- Award Construction August 27, 2013
- Start Construction September 2013
- Complete Construction October 2013

Construction management and inspection services will be provided by the Public Works, Engineering Division.

This project is a continuation of the City’s Residential Resurfacing Program, an aggressive program for resurfacing residential streets Citywide. To date, a total of 190 residential street segments have been resurfaced with this program.

Each contract between the Contractor and any subcontractor shall require the subcontractor to maintain the same policies of insurance that the Contractor is required to maintain pursuant to this Section 6.1.

6.2 Indemnification - Contractor shall indemnify the City, its officers, agents and employees against, and will hold and save them and each of them harmless from, any and all actions, suits, claims, damages to persons or property, losses, costs, penalties, obligations, errors, omissions or liabilities, (herein "claims or liabilities") that may be asserted or claimed by any person, firm or entity arising or alleged to arise out of or in connection with the negligent performance of the work, operations or activities of Contractor, its agents, employees, subcontractors, or invitees, provided for herein, or arising or alleged to arise from the negligent acts or omissions of Contractor hereunder, or arising or alleged to arise from Contractor's negligent performance of or failure to perform any term, provision, covenant or condition of this Agreement, but excluding such claims or liabilities or portion of such claims or liabilities arising or alleged to arise from the negligence or willful misconduct of the City, its officers, agents or employees, and in connection therewith:

   a) Contractor will defend any action or actions filed in connection with any of said claims or liabilities and will pay all costs and expenses, including legal costs and attorneys' fees incurred in connection therewith;

   b) Contractor will promptly pay any judgment rendered against the City, its officers, agents or employees for any such claims or liabilities arising or alleged to arise out of or in connection with Contractor's (or its agents', employees', subcontractors', or invitees') negligent performance of or failure to perform such work, operations or activities hereunder; and Contractor agrees to save and hold the City, its officers, agents, and employees harmless therefrom;

   c) In the event the City, its officers, agents or employees is made a party to any action or proceeding filed or prosecuted against Contractor for such damages or other claims arising or alleged to arise out of or in connection with the negligent performance of or failure to perform the work, operation or activities of Contractor hereunder, Contractor shall pay to the City, its officers, agents or employees, any and all costs and expenses incurred by the
City, its officers, agents or employees in such action or proceeding, including but not limited to, legal costs and attorneys' fees for counsel acceptable to City.

d) Contractor's duty to defend and indemnify as set out in this Section 6.2 shall include any claims, liabilities, obligations, losses, demands, actions, penalties, suits, costs, expenses or damages or injury to persons or property arising or alleged to arise from, in connection with, as a consequence of or pursuant to any state or federal law or regulation regarding hazardous substances, including but not limited to the Federal Insecticide, Fungicide and Rodenticide Act ("FIFRA"), Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("CERCLA"), Resource Conservation and Recovery Act of 1976 ("RCRA"), the Hazardous and Solid Waste Amendments of 1984, the Hazardous Material Transportation Act, the Toxic Substances Control Act, the Clean Air Act, the Clean Water Act, the California Hazardous Substance Account Act, the California Hazardous Waste Control Law or the Porter-Cologne Water Quality Control Act, as any of those statutes may be amended from time to time.

e) City shall provide timely written notice to Contractor of any third party claims (California Public Contracts Code 9201).

f) The Contractor's indemnification obligations pursuant to this Section 6.2 shall survive the termination of this Agreement. Contractor shall require the same indemnification from all subcontractors.

6.3 Labor and Materials Bond, Performance Security and Warranty Security - Concurrently with execution of this Agreement, Contractor shall deliver to City a labor and materials bond and a performance security each in the sum of the amount of this Agreement, in the forms provided by the City Clerk, which secures the payment of subcontractors, laborers and materialmen, and the faithful performance of this Agreement. The bond shall contain the original notarized signature of an authorized officer of the surety and affixed thereto shall be a certified and current copy of his power of attorney. The bond or security shall be unconditional and remain in force during the entire term of the Agreement and shall be null and void only if the Contractor promptly and faithfully performs all terms and conditions of this Agreement. Prior to the acceptance of the work by the City, Contractor shall deposit with the City a Warranty Bond or Security in the amount of 50% of the amount of this Contract and in a form provided by the City warranting the work and materials for a period of one year from the date of acceptance by the City.

6.4 Sufficiency of Insurer or Surety - Insurance or bonds required by this Agreement shall be satisfactory only if issued by companies qualified to do business in California, rated "A" or better in the most recent edition of Best Rating Guide, The Key Rating Guide or in the Federal Register, and only if they are of a financial category Class VII or better, unless such requirements are waived by the Risk Manager of the City due to unique circumstances. In the event the Risk Manager of City ("Risk Manager") determines that the work or services to be performed under this Agreement creates an increased risk of loss to the City, the Contractor agrees that the minimum limits of the insurance policies and the performance bond required by this Section 6 may be changed accordingly upon receipt of written notice from the Risk Manager; provided that the Contractor shall have the right to appeal a determination of increased coverage by the Risk Manager to the City Council of City within ten (10) days of receipt of notice from the Risk Manager.

6.5 Substitution of Securities - Pursuant to California Public Contract Code Section 22300, substitution of eligible equivalent securities for any moneys withheld to ensure
performance under this Agreement for the work to be performed will be permitted at the request and expense of the successful bidder.

7. RECORDS AND REPORTS

7.1 Reports - Contractor shall periodically prepare and submit to the Contract Officer such reports concerning the performance of the services required by this Agreement as the Contract Officer shall require. Contractor hereby acknowledges that the City is greatly concerned about the cost of work and services to be performed pursuant to this Agreement. For this reason, Contractor agrees that if Contractor becomes aware of any facts, circumstances, techniques, or events that may or will materially increase or decrease the cost of the work or services contemplated herein or, if Contractor is providing design services, the cost of the project being designed, Contractor shall promptly notify the Contract Officer of said fact, circumstance, technique or event and the estimated increased or decreased cost related thereto and, if Contractor is providing design services, the estimated increased or decreased cost estimate for the project being designed.

7.2 Records - Contractor shall keep, and require subcontractors to keep, such books and records (including but not limited to payroll records as required herein) as shall be necessary to perform the services required by this Agreement and enable the Contract Officer to evaluate the performance of such services. The Contract Officer shall have full and free access to such books and records at all times during normal business hours of City, including the right to inspect, copy, audit and make records and transcripts from such records. Such records shall be maintained for a period of three (3) years following completion of the services hereunder, and the City shall have access to such records in the event any audit is required.

7.3 Ownership of Documents - All drawings, specifications, reports, records, documents and other materials prepared by Contractor, its employees, subcontractors and agents in the performance of this Agreement shall be the property of City and shall be delivered to City upon request of the Contract Officer or upon the termination of this Agreement, and Contractor shall have no claim for further employment or additional compensation as a result of the exercise by City of its full rights of ownership of the documents and materials hereunder. Contractor may retain copies of such documents for its own use. Contractor shall have an unrestricted right to use the concepts embodied therein. All subcontractors shall provide for assignment to City of any documents or materials prepared by them, and in the event Contractor fails to secure such assignment, Contractor shall indemnify City for all damages resulting therefrom.

8. ENFORCEMENT OF AGREEMENT

8.1 California Law - This Agreement shall be construed and interpreted both as to validity and as to performance of the parties in accordance with the laws of the State of California. Legal actions concerning any dispute, claim or matter arising out of or in relation to this Agreement shall be instituted in the Superior Court of the County of Los Angeles, State of California, or any other appropriate court in such county, and Contractor covenants and agrees to submit to the personal jurisdiction of such court in the event of such action.

8.2 Disputes - In the event either party fails to perform its obligations hereunder, the non-defaulting party shall provide the defaulting party written notice of such default. The defaulting party shall have ten (10) days to cure the default; provided that, if the default is not reasonably susceptible to being cured within said ten (10) day period, the defaulting party shall
have a reasonable time to cure the default, not to exceed a maximum of thirty (30) days, so long as the defaulting party commences to cure such default within ten (10) days of service of such notice and diligently prosecutes the cure to completion; provided further that if the default is an immediate danger to the health, safety and general welfare, the defaulting party shall take such immediate action as may be necessary. Notwithstanding the foregoing, the non-defaulting party may, in its sole and absolute discretion, grant a longer cure period. Should the defaulting party fail to cure the default within the time period provided in this Section, the non-defaulting party shall have the right, in addition to any other rights the non-defaulting party may have at law or in equity, to terminate this Agreement. Compliance with the provisions of this Section 8.2 shall be a condition precedent to bringing any legal action, and such compliance shall not be a waiver of any party's right to take legal action in the event that the dispute is not cured.

8.3 Dispute Resolution – If the amount of this Agreement is $375,000 or less, disputes regarding time extensions or payment amounts must be submitted to a resolution process in accordance with Public Contracts Code 20104-20104.4 as follows:

(1) Informal negotiation between the City and general contractor.

(2) Mediation with the general contractor.

(3) Arbitration.

(4) Court trial. If the party requesting the court trial does not prevail, then that party must pay all court costs and attorney’s fees.

8.4 Waiver – No delay or omission in the exercise of any right or remedy by a non-defaulting party on any default shall impair such right or remedy or be construed as a waiver. A party’s consent to or approval of any act by the other party requiring the party’s consent or approval shall not be deemed to waive or render unnecessary the other party’s consent to or approval of any subsequent act. Any waiver by either party of any default must be in writing and shall not be a waiver of any other default concerning the same or any other provision of this Agreement.

8.5 Rights and Remedies are Cumulative – Except with respect to rights and remedies expressly declared to be exclusive in this Agreement, the rights and remedies of the parties are cumulative and the exercise by either party of one or more of such rights or remedies shall not preclude the exercise by it, at the same or different times, of any other rights or remedies for the same default or any other default by the other party.

8.6 Legal Action – In addition to any other rights or remedies, either party may take legal action, law or in equity, to cure, correct or remedy any default, to recover damages for any default, to compel specific performance of this Agreement, to obtain declaratory or injunctive relief, or to obtain any other remedy consistent with the purposes of this Agreement.

8.7 Liquidated Damages – Since the determination of actual damages for any delay in performance of this Agreement would be extremely difficult or impractical to determine in the event of a breach of this Agreement, the Contractor and its sureties shall be liable for and shall pay to the City the sum of one thousand dollars ($1000.00) as liquidated damages for each working day of delay in the performance of any service required hereunder, as specified in the Schedule of Performance (Exhibit B). In addition, liquidated damages may be assessed for failure to comply with the emergency call out requirements described in the Scope of Services.
(Exhibit A). The City may withhold from any moneys payable on account of services performed by the Contractor any accrued liquidated damages.

8.8 Termination for Default of Contractor - If termination is due to the failure of the Contractor to fulfill its obligations under this Agreement, Contractor shall vacate any City owned property which Contractor is permitted to occupy hereunder and City may, after compliance with the provisions of Section 8.2, take over the work and prosecute the same to completion by contract or otherwise, and the Contractor shall be liable to the extent that the total cost for completion of the services required hereunder exceeds the compensation herein stipulated (provided that the City shall use reasonable efforts to mitigate such damages), and City may withhold any payments to the Contractor for the purpose of setoff or partial payment of the amounts owed the City as previously stated.

8.9 Termination for Convenience – The City may terminate this Agreement without cause for the convenience of the City upon giving Contractor 30 days’ prior written notice of termination of the Agreement. Upon receipt of the notice of termination, the Contractor shall cease all further work pursuant to the Agreement. Upon such termination by the City, the Contractor shall not be entitled to any other remedies, claims, actions, profits, or damages except as provided in this paragraph. Upon the receipt of such notice of termination, Contractor shall be entitled to the following compensation:

1. The contract value of the work completed to and including the date of receipt of the notice of termination, less the amount of progress payments received by Contractor.

2. Actual move-off costs including labor, rental fees, equipment transportation costs, the costs of maintaining on-site construction office for supervising the move-off.

3. The cost of materials custom made for this Agreement which cannot be used by the Contractor in the normal course of his business, and which have not been paid for by City in progress payments.

4. All costs shall not include any markups as might otherwise be allowed by any plans or specifications which were a part of the Agreement.

The provisions of this paragraph shall supersede any other provision of the Agreement or any provision of any plans, specification, addendums or other documents which are or may become a part of this Agreement. City and Contractor agree that the provisions of this paragraph are a substantive part of the consideration for this Agreement.

8.10 Attorney’s Fees - If either party to this Agreement is required to initiate or defend or made a party to any action or proceeding in any way connected with this Agreement, the prevailing party in such action or proceeding, in addition to any other relief which may be granted, whether legal or equitable, shall be entitled to reasonable attorney’s fees. Attorney’s fees shall include attorney’s fees on any appeal, and in addition a party entitled to attorney’s fees shall be entitled to all other reasonable costs for investigating such action, taking depositions and discovery and all other necessary costs the court allows which are incurred in such litigation. All such fees shall be deemed to have accrued on commencement of such action and shall be enforceable whether or not such action is prosecuted to judgment.
9. CITY OFFICERS AND EMPLOYEES, NONDISCRIMINATION

9.1 Non-liability of City Officers and Employees - No officer or employee of the City shall be personally liable to the Contractor, or any successor in interest, in the event of any default or breach by the City or for any amount which may become due to the Contractor or to its successor, or for breach of any obligation of the terms of this Agreement.

9.2 Conflict of Interest - The Contractor warrants that it has not paid or given and will not pay or give any third party any money or other consideration for obtaining this Agreement.

9.3 Covenant Against Discrimination - Contractor covenants that, by and for itself, its heirs, executors, assigns, and all persons claiming under or through them, that there shall be no discrimination against or segregation of, any person or group of persons on account of race, color, creed, religion, sex, marital status, national origin, or ancestry in the performance of this Agreement. To the extent required by law, Contractor shall take affirmative action to insure that applicants are employed and that employees are treated during employment without regard to their race, color, creed, religion, sex, marital status, national origin, or ancestry.

10. MISCELLANEOUS PROVISIONS

10.1 Notice - Any notice, demand, request, document, consent, approval, or communication either party desires or is required to give to the other party or any other person shall be in writing and shall be deemed to be given when served personally or deposited in the U.S. Mail, prepaid, first-class mail, return receipt requested, addressed as follows:

To City: City of Pico Rivera

Fontana, CA 92337

10.2 Interpretation - The terms of this Agreement shall be construed in accordance with the meaning of the language used and shall not be construed for or against either party by reason of the authorship of this Agreement or any other rule of construction which might otherwise apply.

10.3 Integration; Amendment - It is understood that there are no oral agreements between the parties hereto affecting this Agreement and this Agreement supersedes and cancels any and all previous negotiations, arrangements, agreements and understandings, if any, between the parties, and none shall be used to interpret this Agreement. This Agreement may be amended at any time by the mutual consent of the parties by an instrument in writing.

10.4 Severability - In the event that any one or more of the phrases, sentences, clauses, paragraphs, or sections contained in this Agreement shall be declared invalid or unenforceable by a valid judgment or decree of a court of competent jurisdiction, such invalidity
or unenforceability shall not affect any of the remaining phrases, sentences, clauses, paragraphs, or sections of this Agreement which are hereby declared as severable and shall be interpreted to carry out the intent of the parties hereunder unless the invalid provision is so material that its invalidity deprives either party of the basic benefit of their bargain or renders this Agreement meaningless.

10.5 Hiring of Undocumented Workers Prohibited - Contractor shall not hire or employ any person to perform work within the City of Pico Rivera or allow any person to perform work required under this Agreement unless such person is properly documented and legally entitled to be employed within the United States.

10.6 Unfair Business Practices Claims - In entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the Contractor or subcontractor offers and agrees to assign to the awarding body all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Section 15) or under the Cartwright Act (Chapter 2, (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body renders final payment to the Contractor without further acknowledgment by the parties. (Section 7103.5, California Public Contract Code.)

10.7 Corporate Authority - The persons executing this Agreement on behalf of the parties hereto warrant that (i) such party is duly organized and existing, (ii) they are duly authorized to execute and deliver this Agreement on behalf of said party, (iii) by so executing this Agreement, such party is formally bound to the provisions of this Agreement, and (iv) the entering into this Agreement does not violate any provision of any other Agreement to which said party is bound.

[Intentionally left blank. Signatures follow.]
IN WITNESS WHEREOF, the parties have executed and entered into this Agreement as of the date first written above.

Meeting Date: August 27, 2013

Subject: AMENDMENT NO. 11-1244-2 TO AGREEMENT NO. 11-1244 WITH EL RANCHO UNIFIED SCHOOL DISTRICT - SCHOOL RESOURCE DEPUTY

Recommendation:

Approve Amendment No. 11-1244-2 to Agreement No. 11-1244 with El Rancho Unified School District (ERUSD) under which the City will be reimbursed for 50% of the cost of providing a School Resource Deputy from September 2013 through June 2014, and authorize the Mayor to execute the Amendment in a form approved by the City Attorney.

Fiscal Impact: $66,660 (General Fund Savings)

Discussion:

For several years, the City has shared the cost of a School Resource Deputy (Deputy) with ERUSD. The position is filled by a Deputy Sheriff, hired for a 12-month term, under the City’s contract with the Sheriff’s Department at a total cost of $159,988. Since the School District does not have a need for the Deputy for two months during the summer, the Sheriff’s Department assigns the Deputy to special City projects, such as the Vandalism Enforcement Team. The School District has historically agreed to pay 50% of the cost for a 10-month period.

During the school year, the Deputy issues truancy and various misdemeanor citations, including vandalism, and has the authority to make arrests. The Deputy works closely with the Sheriff’s Vandalism Enforcement Team (VET) to identify students involved in tagging and other acts of vandalism. The School District has long been a willing partner in this endeavor.

This position was included in the City’s Law Enforcement budget for Fiscal Year 2013-2014. The total cost for the deputy for the ten-month period is $133,320. The Amendment calls for the School District to reimburse the City $66,660 as its prorated share of this cost.

The Amendment before the City Council has been reviewed and approved by the El Rancho School District Board of Education at its August 8, 2013 regular School Board meeting.

CITY COUNCIL

AGENDA REPORT

To: Mayor and City Council
From: City Manager
Meeting Date: August 27, 2013
Subject: PICO RIVERA CAMPGROUND/PARK REHABILITATION PROJECT

Recommendation:

That the City Council consider the Campground/Park Master conceptual design program elements.

Fiscal Impact: No general fund impact.

Discussion:

The Pico Rivera Campground/Park is located within the Whittier Narrows Flood Control Basin with its primary purpose being flood control protection, water supply and groundwater recharge. The 50 acre site is under the jurisdiction of the City of Pico Rivera (CITY) and the United States Army Corps of Engineers (USACE).

The Campground/Park opened on July 1, 1978 and featured a 50 acre campground that once offered overnight tent and recreational vehicle camping and featured restrooms and shower facilities, horse and walking trails, and an open area for passive recreational uses. The campground closed in 1994.

After an extensive process of soliciting and reviewing proposals from qualified consultants to prepare a Master Plan for the Campground/Park, the City entered into a professional service agreement on April 9, 2013 with MIG Landscape Architects to
develop a conceptual master plan design of landscape development improvements within Pico Rivera Campground/Park.

Attached for your review is a preliminary design concept for the Campground/Park project which outlines MIG’s design team’s work on the project to date, taking into consideration two distinct perspectives. First, the consultant evaluated the potential and financial self-sustainability for developing the campground based on a preliminary market analysis and overall rentability in the Southern California market. Second, the consultant created a design master plan based on data collection, visual and site analysis, that focused on utilizing much of the current infrastructure to minimize capital costs. Key sub-consultants working with MIG brought a wealth of local and national knowledge to the project, and included Hancock Resources, a national recognized expert in the design of equestrian facilities, and CLM Services, a professional concessionaire management services firm.

The most important component of the Master Plan development was the public input process. Two community visioning meetings were held at the Pico Rivera Golf Course seeking community input on the park development. The overall findings from workshop participants showed the community wanted to maintain the natural setting of the site, create connections to the existing regional trials, provide opportunities for family and group camping and provide equestrian amenities. Another popular program priority was to provide nature based activities for children.

Although the Campground/Park may not drive economic development, it has the potential to be a catalyst that can help bring people to the area. If done right, surrounding development could enable the Campground/Park to become a destination that supports other local facilities and services.

The proposed Master Plan design Concept describes the overall vision, programming components, and design considerations for the project. It forms the basis for development of a final schematic design for the property. The purpose of this presentation is to obtain direction from the City Council on the continued development of the Campground/Park Master Plan.

Although, a cost of approximately $10 million would be necessary to develop the Campground/Park as presented in this design concept, staff is working with MIG on
the development of an implementation plan that addresses the development in a phased approach.

Recognizing that there is a lack of current funding to develop the design concept presented, MIG has performed a preliminary market analysis of the park development and has determined that with the proper investment the facility has the potential to be a profitable venture. Staff will work with MIG in search of potential operators who may be interested in investing the needed capital in exchange for long-term lease agreement that would allow the development to commence and be financially self sustaining.

In addition, staff will work with local, state and federal agencies to seek grant funding to fully implement, in phased segments, the conceptual design.

Subject: AGREEMENT EXTENSION WITH LEBA INC., CONCESSIONAIRE FOR THE PICO RIVERA SPORTS ARENA

Recommendation:

Approve the attached Agreement with LEBA Inc. for operations of the Pico Rivera Sports Arena.

Fiscal Impact:

Increase of $40,000 per year in lease revenue plus CPI to the Sports Arena Enterprise Fund for the 20 year term of the agreement.

Discussion:

On April 2010, the City entered into an agreement with LEBA Inc. for the operation and maintenance of the Pico Rivera Sports Arena. During this lease period, the Concessionaire has performed at or above expectations. Pursuant to Section 5.3 of the current agreement, the Concessionaire has submitted written notice expressing interest in negotiations regarding the terms and conditions of the current agreement.

On May 13, 2013, staff met with the Sports Arena Ad Hoc Committee (Camacho & Armenta) to discuss parameters for negotiating points noted by the Concessionaire. Subsequent to the Ad Hoc Committee meeting, staff negotiated with the Concessionaires on deal points that provide long term financing opportunities for LEBA Inc. and support significant upgrades to the existing facilities and improve health and safety features, as well as enhancements to the cosmetic and esthetic components of the Pico Rivera Sports Arena and adjacent areas. The Concessionaire with an extended
term, is proposing enhancements and upgrades that will result in their ability to expand their scope of entertainment programming and feature a much broader array of program choices to reach out to the greatest number of participants.

The principal points that were negotiated with this extension and agreed to by the Concessionaire are as follows:

1. Concessionaire to implement a three phased improvement program totaling a minimum of $7 million:

   Phase 1 – LED standing billboard display (minimum $400,000) – 12 months. Council can extend to 24 months.
   Phase 2 – Infrastructure improvements (minimum $200,000) – 24 months
   Phase 3 – Sports Arena capital improvements with extra seating and a free standing cover (minimum $6.4 million) – 36 months. Council can extend to 48 months.

2. City agrees to minimize fees to the extent possible, but not waive fees for permits, inspections etc. For capital improvement projects Phase 1 – 3, the City will expedite processing of all permits, inspections etc.

3. City will contribute 20% of the total cost of Phase 1 development “LED billboard” up to a cost of $60,000.

4. Term: 20 years is consistent with the City’s lease with the United States Army Corps of Engineers (USACE).

5. Concessionaire to pay $240,000 annually, including CPI maximum of 5% per year increase thru the term of the lease.

6. City to reinvest 10% of the annual Concessionaire’s lease payments to infrastructure improvements agreed to by the City and Concessionaire.

7. City to add property to the lease generally described as the horse stables property to offset property used by Edison for power transmissions standards, which was previously available for sports arena parking.
In conclusion, staff recommends that the City Council formally authorize the execution of Agreement No. 07-987-1 as the Operative Concessionaire Agreement, superseding all prior agreements.

Such regulations, conditions or instructions in effect or prescribed by the Environmental Protection Agency or State Agency are hereby made a condition of this lease.

15. This lease may be revoked by the Secretary of the Army in the event the Lessee violates any of the terms and conditions of this lease and continues and persists therein for thirty (30) days after notice thereof, in writing, by the Commander. Such a termination shall not derogate or diminish such other remedies in law as may be available to the Government and in no way shall it act to relieve the Lessee of its responsibilities and obligations under the Contract. In lieu of revocation, the Commander, in his discretion, upon finding that a violation constitutes a health or safety hazard may suspend the use of that operation or facility until such deficiency is rectified.

16. On or before the date of expiration of this lease, the Lessee shall vacate the premises, remove its property therefrom, and restore the premises to a condition satisfactory to the Commander. If however, this lease is revoked the Lessee shall vacate the premises, remove its property therefrom, and restore the premises as aforesaid within such time as the Secretary of the Army may designate. In either event, if the Lessee shall fail or neglect to remove its property and so restore the premises, then its property shall become the property of the United States without compensation therefor, and no

claim for damages against the United States, or its officers or agents shall be created by or made on account thereof.

17. All notices to be given pursuant to this lease shall be addressed, if to the Lessee, to the city of Pico Rivera; if to the Government, to Commander, US Army Engineer District, Los Angeles, P.O. Box 2711, Los Angeles, California 90053, or as may from time to time be directed by the parties. Notice shall be deemed to have been duly given if and when inclosed in a properly sealed envelope or wrapper, addressed as aforesaid and deposited postage prepaid (or, if mailed by the Government, deposited under its franking privilege) in a post office regularly maintained by the United States Government.

18. That the areas initially made available to the Lessee for public park and recreational purposes by this lease, and any additional areas which may be made available to the Lessee from time to time hereafter, shall be known as the Whittier Narrows Reservoir Corps of Engineers-City of Pico Rivera Recreational Area, and said areas shall hereafter be referred to as the "recreational areas."

19. The Lessee shall not grant any concession privileges, permits, or leases of any portion of the recreational areas covered by this lease for private farming or private agricultural use.

20. That in order to protect the United States and the City of Pico Rivera against claims for damages which might arise out of the use and occupation of said recreational areas by persons to whom the Lessee may grant concessions or licenses, the Lessee herein agrees to insert a condition in such concessions or licenses which it grants pursuant to Condition No. 5, hereof, which shall be in substantially the following form:

"The concessionaire or licensee, in consideration of the granting of this concession or license, agrees to hold the United States and the City of Pico Rivera harmless from any and all claim or rights of action for damages which may or might arise or accrue to said concessionaire or licensee, his officers, agents, servants, employees, or others who may be on the licensed premises at his invitation or the invitation of any one of them, by reason of injury to the property, or the person of any of them resulting from the entry upon or the use of the licensed premises by the United States, the City of Pico Rivera, or any of them, for any purpose necessary or convenient in connection with river and flood control work, or for the removal of timber required or necessary for such work, or by reason of the flooding of the licensed premises, or any part thereof, when in the judgement of any of them, such flooding is necessary in connection with flood control work."

A proposed copy of each concession agreement or license granted by the Lessee herein shall be submitted to the Commander for approval prior to its execution.

21. That the Lessee will remove all debris within the perimeter of this lease and will maintain the property at all times in a clean condition, free from weeds, brush, and gullies at its own expense. Refuse receptacles shall
be nonfloatable and refuse disposed of in a manner approved by local health agencies.

22. That the Lessee shall cut no timber, except in furtherance of the plans for public park and recreational area approved in writing by said Commander, and shall conduct no mining or drilling operations, remove no sand, gravel, or kindred substances from the ground, except such sand, gravel, or kindred substances as may be used in connection with buildings, filling, landscaping, and improvement operations on the leased premises by the Lessee in accordance with the plan approved in writing by said Commander, and shall commit no waste of any kind or in any manner substantially change the contour or condition of the leased premises except in accordance with the plans approved in writing by said Commander, but the Lessee may salvage such fallen or dead timber as may be required for use as firewood.

23. That the Lessee shall not permit gambling on the said leased premises, or install or operate, or permit to be installed or operated, on the leased premises, any device which, in opinion of the said Commander is contrary to good morals or is otherwise objectionable; or sell or permit to be sold on the said leased premises intoxicating liquors, excepting beer and light wines; or use the said leased premises or permit them to be used for any illegal or immoral business or purpose; there shall not be carried on or permitted upon the said premises any activity which would constitute a nuisance.

24. That it is understood that this instrument is effective only insofar as the rights of the United States in the property covered by this lease are concerned, and the Lessee shall obtain such permission as may be necessary on account of any other existing rights.

25. For the purpose of maintaining attendance records, the Lessee shall obtain and submit public use visitation data to said leased premises, in compliance with such use regulations, and shall furnish such data on attendance and use as may be requested by the Commander.

26. All monies received by the Lessee from operations conducted on the leased premises, including, but not limited to, entrance and admission fees, and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee for the administration, maintenance, operation, and development of the leased premises. Any such monies not so utilized or programmed for utilization in a reasonable time by the Lessee shall be paid to the Commander at the expiration of each 5-year period of this lease. The Lessee shall establish and maintain adequate records and accounts and render annual statements of receipts and expenditures to the Commander.

27. That no member of or delegate to Congress or resident commissioner shall be admitted to any share or part of this lease or to any monetary benefit to arise therefrom. Nothing, however, herein contained shall be construed to extend to any incorporated company, if the lease is for the general benefit of such corporation or company.
28. That the Lessee shall construct perimeter fencing of such design and at locations required and approved by the Commander.

29. That the city of Los Angeles Department of Water and Power Boulder Transmission Line is located on a portion of the lands herein leased. The Lessee shall not construct any facilities on the power line right-of-way that have not been approved in writing by the City of Los Angeles. There are two existing steel towers on the said right-of-way which present an attraction for climbing. Fencing shall be constructed around the towers to prevent such activity. Golf balls which may fall within the said fenced areas may be retrieved by Golf Course officials by means of entrance through a locked gate.

30. That all structures shall be constructed and landscaping accomplished in accordance with plans approved by the Commander. Further, the Lessee shall not discharge waste or effluent from the premises in such a manner that such discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

31. That no changes will be made in the topography which would deplete the storage capacity of the reservoir.

32. That no human habitation shall be permitted on the premises. This shall not be construed to prohibit the Lessee from providing properly designed and approved guard stations for night watchman or other patrolmen.

33. That the Lessee shall exercise control of the area to insure compliance with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein said premises are located, including the Fish and Game Commission laws of the State of California.

34. That any and all taxes which may be lawfully imposed by the state, or any of its subdivisions upon the premises, the concessions, or other improvements placed upon the premises by the Lessee or by third parties under agreement with the Lessee, shall be promptly paid by the Lessee or such third parties as their interest may appear.

35. That the United States acquired no mineral rights within the leased area; and nothing within this lease shall be construed to indicate that the United States, in granting this lease, prohibits drilling or exploration work by owners of mineral rights or their lessees.

36. That, except as otherwise provided in this lease, any dispute concerning a question of fact arising under this lease which is not disposed of by agreement shall be decided by the Commander, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Lessee. The decision of the said officer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Lessee mails or otherwise furnishes to the said officer a written appeal addressed to the Secretary of the Army. The decision of the Secretary or his duly authorized representative for the determination of such appeals, shall be final and conclusive unless determined by a court of competent jurisdiction to have been
fraudulent, or capricious, or arbitrary, or so grossly erroneous as
necessarily to imply bad faith, or not supported by substantial evidence. In
connection with any appeal proceeding under this condition, the lessee shall
be afforded an opportunity to be heard or to offer evidence in support of its
appeal. Pending final decision of a dispute hereunder, the lessee shall
proceed diligently with the performance of the contract and in accordance with
the said officer's decision.

37. That this condition does not preclude consideration of law questions
in connection with decisions provided for in paragraph 36 above, provided that
nothing in this condition shall be construed as making final the decision of
any administrative official, representative, or board on a question of law.

38. That this lease supersedes Lease No. DA-04-353-CIVENG-66-137.

IN WITNESS WHEREOF I have hereto set my hand by authority of the Secretary
of the Army this 15th day of October, 1984.

Subject: Pico Rivera Sports Arena Concession Agreement

Ray,

The US Army Corps of Engineers has finalized its review of the City of Pico Rivera’s proposed Concession Agreement with LEBA, Inc. for the operation and maintenance of the Pico Rivera Sports Arena, Whittier Narrows Flood Control Basin.

Since the terms of the Master Lease No. DACW09-1-85-4 allow for the sublease of the premises under certain conditions, we have no objections to the proposed concession/sublease agreement. Our approval is subject to our edits which are shown in the marked up Pico Rivera Sports Arena Concession Agreement (attached).

Please provide this office with a copy of the executed Concession Agreement for our records.

If you have any questions or would like further information, please feel free to contact me.

Thank you,
