

PLANNING COMMISSION

Pursuant to Section 65100 of the Government Code, the City Council established a Planning Agency for the City, which consists of a Planning Commission. This Commission shall hold at least one regular meeting per month. The purpose of the Planning Commission is:

- To develop and maintain a general plan
- To develop such specific plans as may be necessary or desirable
- To periodically review the improvement program of the City
- To perform such other functions as authorized by the City Council and provided by law.

As provided in Section 65101 of the Government Code, the Planning Commission shall perform the following additional functions as an advisory agency to the City Council, to the extent that such functions may be related to local planning:

- Building and Safety
 - Study and review building and safety laws and current legislation as same may be related to City Ordinances
 - Recommend to the City Council methods of implementation of building and safety requirements.
- Traffic and Circulation
 - Study and review ways and means to improve general traffic and circulation conditions, and periodically report to the Council
 - Review and report to the City Council all Southern California Rapid Transit District, Cal-Trans and Southern California Association of Governments (SCAG) reports and/or proposals regarding transportation, as they may relate to the City
- Environment
 - Review and report to the City Council on new legislation relating to the California Environmental Quality Act and the implementation thereof
 - Study and review land use as related to ecological control
- City Beautification
 - Make recommendations to the City Council on community beautification, including capital improvement projects in the civic center area, main entrances to the City, and parks
